

CSBA's PRACTI-CAL

Putting California's children first through industry leading consulting and Medi-Cal billing services

CSBA's Practi-Cal provides local educational agencies (LEAs) with superior fee-for-service Medi-Cal billing claims processing and MAA consulting services. Practi-Cal processes claims for millions of dollars and ensures program compliance so that clients keep it. Read on to discover why Practi-Cal is the right choice for your LEA.

MEDI-CAL ADMINISTRATIVE ACTIVITIES PROGRAM OVERVIEW

Each year, thousands of children in California miss out on basic medical care because their family cannot afford health coverage. To address this issue, the California Department of Health Services established the Medi-Cal Administrative Activities (MAA) Program. This program allows for LEAs to be reimbursed for various activities associated with referring and linking children to health services and the Medi-Cal/Healthy Families program.

CSBA's Practi-Cal works with LEAs to facilitate unrestricted reimbursement from school-based MAA performed daily by staff for children within their school district. Reimbursement is based on the cost of providing eligible health related outreach activities associated with the necessary and proper administration of connecting children to health services and the Medi-Cal/Healthy Families program.

"Practi-Cal is dedicated as a partner in our success in the MAA and LEA programs and is always available for meetings, trainings, reports and strategic ideas to improve health services for our children. Practi-Cal is accountable and we can always depend on them to ensure compliance while maximizing our revenue in these programs."

East Whittier City School

LET PRACTI-CAL'S EXPERTS SHOW YOU YOUR REVENUE POTENTIAL.
