Board Policy

Safe Routes To School Program

BP 5142.2

Students

Note: The following optional policy may be revised to reflect district practice. Districts are encouraged to review CSBA's policy brief, Safe Routes to School: Program and Policy Strategies for School Districts, when developing policy on this topic. In addition, districts should consult legal counsel and/or the district's insurance provider regarding any potential liability issues.

Note: Both state and federal grants are available to support local efforts to increase the number of students walking and bicycling to school and to make it safer for them to do so. The federal Safe Routes to Schools (SRTS) program supports both infrastructure and noninfrastructure projects and focuses on grades K-8 (23 USC 148). The state program, referred to as SR2S, provides funding to cities and counties for infrastructure projects in the vicinity of K-12 schools, with up to 10 percent expenditure allowable for noninfrastructure activities (Streets and Highways Code 2333.5). Funding for both federal and state programs is distributed through the California Department of Transportation's (Caltrans) Division of Local Assistance. Questions about program administration may be directed to the Caltrans regional coordinator.

Note: Strategies to promote walking, bicycling, and other forms of active transport to school may be referenced in the district's school wellness policy, adopted pursuant to the federal Child Nutrition and Women, Infants and Children (WIC) Reauthorization Act of 2004 (42 USC 1751 Note), which is required to include goals for physical activity; see BP 5030 - Student Wellness. Strategies may also be included in the district's comprehensive safety plan adopted pursuant to Education Code 32282; see AR 0450 - Comprehensive Safety Plan.

The Governing Board recognizes that walking, bicycling, and other forms of active transport to school promote students' physical activity and reduce vehicle traffic and air pollution in the vicinity of schools. As part of the district's coordinated approach to supporting student wellness and safety and enhancing student learning, the Superintendent or designee shall develop and implement strategies to establish and promote safe routes to school program activities.

(cf. 0450 - Comprehensive Safety Plan)

(cf. 3510 - Green School Operations)

(cf. 3514 - Environmental Safety)

(cf. 5030 - Student Wellness)

(cf. 5142 - Safety)

The Superintendent or designee may identify a program coordinator or establish district and/or school site committees to oversee and coordinate related activities.

The Superintendent or designee may collaborate with local public works and public safety departments, transportation agencies, other city and county agencies, school staff, students, parents/guardians and parent organizations, health organizations, community organizations, and/or businesses in the development, implementation, and evaluation of strategies.

(cf. 1020 - Youth Services)

(cf. 1220 - Citizen Advisory Committees)

(cf. 1230 - School-Connected Organizations)

(cf. 1400 - Relations Between Other Governmental Agencies and the Schools)

(cf. 1700 - Relations Between Private Industry and the Schools)

(cf. 6020 - Parent Involvement)

Strategies shall be based on the grade levels of the students and an assessment of the conditions and needs of each school and the surrounding neighborhoods.

Note: When local agencies partner together to apply for a state or federal grant, the city or county is generally the lead applicant for infrastructure funding. A school district may be named as the responsible agency for a federal grant if it partners with a city, county, or transportation agency. However, the district may collaborate to find funding sources and also may seek alternative funding sources for district projects and events that are not covered by a grant.

The Superintendent or designee shall explore the availability of grant funds and other sources of funding to support related projects and activities.

(cf. 1260 - Educational Foundation)

(cf. 3100 - Budget)

(cf. 3290 - Gifts, Grants and Bequests)

(cf. 7110 - Facilities Master Plan)

Note: The following optional paragraph may be revised to reflect indicators agreed upon by the Governing Board and Superintendent or designee to assess progress toward program goals. To assist with program evaluation, the National Center for Safe Routes to School (NCSRTS) has developed a standardized survey of parents/guardians' attitudes about allowing their child to walk or bicycle to school as well as student tally forms for recording the modes of travel that students use. NCSRTS recommends that a district use these forms both before and after implementation of a project in order to evaluate changes in attitudes and behaviors. NCSRTS also provides data analysis and report preparation of parent surveys and student tallies. Caltrans requires the use of these evaluation forms by grant recipients.

The Superintendent or designee shall periodically report to the Board on the implementation of program activities and progress toward program goals. Such reports may include, but not be limited to, levels of participation in promotional and educational activities, survey results of parent/guardian attitudes about allowing their child to walk or bicycle to school, tallies of the numbers of students using various modes of travel to and from school and how these numbers

have changed over time, records of student attendance and on-time arrival, and injury data within the school and/or district attendance boundaries.

(cf. 0500 - Accountability)
